MYERS MANAGES LEGAL EDUCATION NETWORK FOR THE U.S. DEPARTMENT OF JUSTICE

Northampton, MA (November 20, 2013) [Myers](#) – the respected developer of broadcast traffic, business, and content management software – today announced a successful implementation of the company's highly regarded ProTrack TV suite for the Office of Legal Education (OLE), a branch of the U.S.

Department of Justice in Washington, D.C. The Myers software suite, operating in collaboration with the facility's play-to-air automation, significantly streamlines the workflows needed to schedule, manage and distribute programming.

The OLE operates Justice Television Network (JTN), a satellite-based system that provides training and coverage of significant departmental events to more than 260 locations, including all 94 U.S. Attorneys' Offices and other Department of Justice components. JTN airs an average of 700 programs per week during its 25 hour broadcast schedule.

"We are very proud to have been selected for this project; to have a hand in making a key government agency more cost-effective and efficient," said Crist Myers, company CEO and president. "Our experienced project team was able to complete the on-site installation, including testing interfaces and training the facility's operators on-time and on-budget."

ProTrack, Myers' proven flagship suite, is available in both radio and television editions. It offers comprehensive scheduling and business management for individual, multichannel and multi-station facilities. Actively used by more than 226 media outlets, supporting more than 1,300 channels, ProTrack provides a high-level of structure, scalability, and systems integration for today's rapidly evolving media environments.

ABOUT MYERS

Formerly known as Myers Information Systems, Inc., the company has been developing broadcast management software since 1989. Myers provides technology and services for television, radio and other digital media providers designed to improve every aspect of their operations, from contracting to invoicing, media management to scheduling, and from trafficking to reconciliation.
